PROFILE

I am a frontend developer based in Egypt. I build pixel-perfect, engaging, and accessible digital experiences. I'll help you build beautiful websites, turning ideas into visually appealing and functional web solutions.

PROJECTS

- ### The Wild Oasis - Hotel management system

Key features:

1. Authentication
2. Dashboard with charts to keep track of hotel data.
3. Cabins: Add, delete, edit and update a cabin.
4. Bookings: Check-in and out, add and delete a booking.
5. Guests: Add a new guest to hotel database.

Build with: React, Tailwind, React query, React hook form, Recharts

- ### Cara - Ecommerce website

Key features:

1. Product catalog: Browse products by it's categories.
2. Search for a product.
3. Recommended products while reviewing a product.
4. Cart: Perform all necessary operations on products in cart page before checkout.

Build with: React, Tailwind, Framer motion
